Education

Education	Year	CGPA
ABC High School	2018	9.8/10
DEF Senior School	2020	9.6/10
XYZ University	2025	9.2/10

Projects

Expense Tracker App

- Built a full-stack web application using React and Node.js to track expenses and visualize spending patterns.
- Deployed on AWS and used by 500+ users.

Library Management System

- Developed a desktop application using Java and MySQL for managing library operations.
- Reduced book issuance time by 30% through optimized search algorithms.

Experience

Software Engineering Intern at XYZ Corp

- Developed a feature to improve user onboarding, reducing drop-off by 15%.
- Collaborated with a team to redesign the UI, improving user satisfaction scores.

Volunteer Developer for Open Source Project

- Contributed to a library used by 10,000+ developers.
- Resolved 20+ issues and implemented 5 new features based on user feedback.

Skills

- Python

- Data Structures and Algorithms
- Web Development (HTML, CSS, JavaScript, React)
- Database Management (MySQL, MongoDB)

Extracurricular Activities

- Member of University Coding Club: Organized 5 hackathons and participated in coding competitions.
- Volunteer at Local Animal Shelter: Managed social media campaigns to increase adoption rates.
